SILIRUB CLEANROOM

CLEANROOM-GRADE SILICONE SEALANT FOR APPLICATIONS IN CRITICAL SURROUNDINGS

Silirub Cleanroom is a high-quality neutral, elastic low modulus silicone sealant. The product has been developed for sealing applications in critical surroundings (hospitals, laboratories, pharmaceutical industry) and in foodsafe applications. Contains Bethoguard™ technology from Janssen Pharmaceutica.

PROPERTIES

- Neutral alkoxy silicone sealant
- Permanent colour, UV-resistant
- Stays fully elastic after curing
- Very good adhesion on many materials
- Almost no smell
- Slow skinning time - therefore ideally suited for long joint runs
- Tested according to FDA regulations code CFR 21 § 177.2600 (e) and (f)

APPLICATION

- Production halls where pharmaceutical, electronical and other sterile products are produced
- Food industry
- Coldstore warehouses
- Refrigerated trucks for food transport
- Operation theatres in hospitals
- Computer mainframe areas
- Sealing in cleanroom applications in hospitals
- Laboratories and other critical surroundings
- Sealing in environments where food is handled and stored (food containers, cold store installations, etc.)
- Expansion joints between different building materials

PACKAGING

310 ml cartridges, 15 cartridges / carton

COLOURS

White

SHELF LIFE

12 months in unopened packaging in a cool and dry storage place at temperatures between 5°C to 25°C. *Important: The product is heat sensitive. When stored and transported in warm conditions, the shelf life will be limited to 6 months.*
