CALOFER

HIGH-QUALITY SEALING PASTE WITH HEAT RESISTANCE UP TO 1500°C

Calofer is sealing paste based on sodium silicate that can be used in conditions where temperatures can get extremely high - up to 1500°C. Perfect for sealing applications in ovens, fireplaces, and other hot areas.

PROPERTIES

- Sodium silicate sealing paste
- Ready-to-use - no mixing required
- No fragmentation or cracking after curing
- Heat resistant up to 1500°C
- Free of asbestos

APPLICATIONS

- Sealing of joints and openings where high temperatures are possible
- Sealing of stoves, ovens, fireplaces etc.

REMARKS

- A slight warming of the heating installation during 12 hours after application prevents bubble-forming and improves structure.
- Do not apply in situations where constant water immersion is possible

SUITABLE SUBSTRATES

Brick, concrete, metals

SURFACE PREPARATION

Slightly moistening porous surfaces improves adhesion.

PACKAGING

310 ml cartridges, 15 cartridges / carton

COLOURS

Black

SHELF LIFE

12 months in unopened packaging in a cool and dry storage place at temperatures between 5°C to 25°C. Protect against frost.

HEAT RESISTANT

UP TO 1500°C

NO CRACKING
