

SAFETY DATA SHEET

Based upon Regulation (EC) No 1907/2006, as amended by Regulation (EU) No 2015/830

	Judaluani uni
Signal word H-statements	Danger
H222	Extremely flammable aerosol.
H229	Pressurised container: May burst if heated.
H351	Suspected of causing cancer.
H362	
H332	May cause harm to breast-fed children. Harmful if inhaled.
Н332	
	May cause damage to organs through prolonged or repeated exposure if inhaled.
H319	Causes serious eye irritation.
H335	May cause respiratory irritation.
H315	Causes skin irritation.
H334	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H317	May cause an allergic skin reaction.
H413	May cause long lasting harmful effects to aquatic life.
P-statements	
P101	If medical advice is needed, have product container or label at hand.
P102	Keep out of reach of children.
P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
P211	Do not spray on an open flame or other ignition source.
P251	Do not pierce or burn, even after use.
P308 + P313	IF exposed or concerned: Get medical advice/attention.
P405	Store locked up.
P410 + P412	Protect from sunlight. Do not expose to temperatures exceeding 50 °C/ 122°F.
P501	Dispose of contents/container in accordance with local/regional/national/international regulation.
Supplemental information	on de la constante de la const
	- Persons already sensitised to diisocyanates may develop allergic reactions when using this product Persons suffering from asthma, eczema or skin problems should avoid contact, including dermal contact, with this product This product should not be used under conditions of poor ventilation unless a protective mask with an appropriate gas filter (i.e. type A1 according to standard EN 14387) is used.

2.3. Other hazards

Gas/vapour spreads at floor level: ignition hazard

SECTION 3: Composition/information on ingredients

4.1. Description of first aid measures		1		
General: GENERAL. Check the vital functions. Unconscious: maintain ade perform resuscitation. Victim conscious with laboured breathin asphyxia/aspiration pneumonia. Prevent cooling by covering th calm, avoid physical strain. Depending on the victim's condition After inhalation:	g: half-seated. Victi e victim (no warmir n: doctor/hospital.	m in shock: on his back with ng up). Keep watching the vio	legs slightly raised.	Vomiting: prevent
Remove the victim into fresh air. Respiratory problems: consult After skin contact: Wash immediately with lots of water. Take victim to a doctor if		ervice.		
After eye contact: Rinse immediately with plenty of water. Do not apply neutralizi After ingestion: Rinse mouth with water. Immediately after ingestion: give lots of				al service if you feel unwell.
 4.2. Most important symptoms and effects, both acute 4.2.1 Acute symptoms After inhalation: Dry/sore throat. Coughing. Irritation of the respiratory tract. Irrit LATER: Possible inflammation of the respiratory tract. Risk of lut After skin contact: Tingling/irritation of the skin. After eye contact: Irritation of the eye tissue. Lacrimation. After ingestion: Not applicable. 4.2.2 Delayed symptoms No effects known. 4.3. Indication of any immediate medical attention and If applicable and available it will be listed below.	itation of the nasal ng oedema. Respira	ntory difficulties.	nose. FOLLOWING	SYMPTOMS MAY APPEAR
SECTION 5: Firefighting measures				
5.1. Extinguishing media 5.1.1 Suitable extinguishing media: Quantities of water. Polyvalent foam. BC powder. Carbon dioxid 5.1.2 Unsuitable extinguishing media: No unsuitable extinguishing media known.	de.			
5.2. Special hazards arising from the substance or mixty On burning: release of toxic and corrosive gases/vapours (nitro- burst if heated. May polymerize on exposure to temperature re	us vapours, hydroge			
 5.3. Advice for firefighters 5.3.1 Instructions: If exposed to fire cool the closed containers by spraying with wa exposed to heat. After cooling: persistant risk of physical explose 5.3.2 Special protective equipment for fire-fighters: Gloves. Protective goggles. Head/neck protection. Protective closed 	sion. Dilute toxic gas	ses with water spray. Take ac	ccount of toxic/corr

8.1.5 Control banding

If applicable and available it will be listed below.

8.2. Exposure controls

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

8.2.1 Appropriate engineering controls

Use spark-/explosionproof appliances and lighting system. Keep away from naked flames/heat. Keep away from ignition sources/sparks. Measure the concentration in the air regularly.

8.2.2 Individual protection measures, such as personal protective equipment

Observe very strict hygiene - avoid contact. Do not eat, drink or smoke during work.

a) Respiratory protection:

Wear gas mask with filter type A if conc. in air > exposure limit.

b) Hand protection:

	Gloves.						
	Materials		Breakthroug	h time		Thickness	6
	LDPE (Low Density Poly E	thylene)	10 minutes			0.025 mn	ı
<u>c) E</u>	ve protection:						

Protective goggles.

d) Skin protection:

Head/neck protection. Protective clothing.

8.2.3 Environmental exposure controls:

See headings 6.2, 6.3 and 13

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical form	Aerosol
Odour	Characteristic odour
Odour threshold	No data available
Colour	Variable in colour, depending on the composition
Particle size	Not applicable
Explosion limits	No data available
Flammability	Extremely flammable aerosol.
Log Kow	Not applicable (mixture)

Reason for revision: 2.2 + 3.2

Publication date: 2002-03-23 Date of revision: 2016-04-18

Dynamic viscosity	No data available
Kinematic viscosity	No data available
Melting point	No data available
Boiling point	No data available
Flash point	Not applicable
Evaporation rate	No data available
Relative vapour density	>1
Vapour pressure	No data available
Solubility	organic solvents ; soluble
	water ; insoluble
Relative density	0.95 ; 20 °C
Decomposition temperature	No data available
Auto-ignition temperatur <mark>e</mark>	No data available
Explosive properties	No chemical group associated with explosive properties
Oxidising properties	No chemical group associated with oxidising properties
рН	No data available
Other information	
Absolute density	950 kg/m³ ; 20 °C

SECTION 10: Stability and reactivity

10.1. Reactivity

May be ignited by sparks. Gas/vapour spreads at floor level: ignition hazard. No data available.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

May polymerize with many compounds e.g.: (strong) bases and amines. Reacts violently with (some) acids/bases.

10.4. Conditions to avoid

Use spark-/explosionproof appliances and lighting system. Keep away from naked flames/heat. Keep away from ignition sources/sparks.

10.5. Incompatible materials

(strong) acids, (strong) bases.

10.6. Hazardous decomposition products

On heating: release of toxic/combustible gases/vapours (hydrogen cyanide). On burning: release of toxic and corrosive gases/vapours (nitrous vapours, hydrogen chloride, carbon monoxide - carbon dioxide).

SECTION 11: Toxicological information

11.1. Information on toxicological effects

11.1.1 Test results

Acute toxicity

Conclusion

Contains component(s) that adsorb(s) into the soil

Contains component(s) with potential for mobility in the soil

12.5. Results of PBT and vPvB assessment

Does not contain component(s) that meet(s) the criteria of PBT and/or vPvB as listed in Annex XIII of Regulation (EC) No 1907/2006.

12.6. Other adverse effects

Soudafoam Gun

Fluorinated greenhouse gases (Regulation (EU) No 517/2014)

None of the known components is included in the list of fluorinated greenhouse gases (Regulation (EU) No 517/2014)

Ozone-depleting potential (ODP)

Not classified as dangerous for the ozone layer (Regulation (EC) No 1005/2009)

SECTION 13: Disposal considerations

The information in this section is a general description. If applicable and available, exposure scenarios are attached in annex. Always use the relevant exposure scenarios that correspond to your identified use.

13.1. Waste treatment methods

13.1.1 Provisions relating to waste

Hazardous waste according to Directive 2008/98/EC, as amended by Regulation (EU) No 1357/2014.

Waste material code (Directive 2008/98/EC, Decision 2000/0532/EC).

08 05 01* (wastes not otherwise specified in 08: waste isocyanates).

16 05 04* (gases in pressure containers and discarded chemicals: gases in pressure containers (including halons) containing hazardous substances).

Depending on branch of industry and production process, also other waste codes may be applicable.

13.1.2 Disposal methods

Recycle/reuse. Remove waste in accordance with local and/or national regulations. Hazardous waste shall not be mixed together with other waste. Different types of hazardous waste shall not be mixed together if this may entail a risk of pollution or create problems for the further management of the waste. Hazardous waste shall be managed responsibly. All entities that store, transport or handle hazardous waste shall take the necessary measures to prevent risks of pollution or damage to people or animals. Specific treatment. Do not discharge into drains or the environment.

13.1.3 Packaging/Container

Waste material code packaging (Directive 2008/98/EC).

15 01 10* (packaging containing residues of or contaminated by dangerous substances).

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

European legislation:

VOC content Directive 2010/75/EU

VOC content		Remark	
41.3 %			
392.4 g/l			

REACH Annex XVII - Restriction

Contains component(s) subject to restrictions of Annex XVII of Regulation (EC) No 1907/2006: restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles.

U U			
	Designation of the substance, of the	group of	Conditions of restriction
	substances or of the mixture		
· polymethylene polyphenyl isocyanate	Liquid substances or mixtures which		1. Shall not be used in:
· alkanes, C14-17, chloro	regarded as dangerous in accordance		 ornamental articles intended to produce light or colour effects by means of different
 reaction mass of tris(2-chloropropyl) 			phases, for example in ornamental lamps and ashtrays,
phosphate and tris(2-chloro-1-methylethy			 tricks and jokes,
phosphate and phosphoric acid, bis(2-chlo		ulation (EC)	- games for one or more participants, or any article intended to be used as such, even with
1-methylethyl) 2-chloropropyl ester and	No 1272/2008:		ornamental aspects, 2. Articles not complying with paragraph 1 shall not be placed on the
phosphoric acid, 2-chloro-1-methylethyl	(a) hazard classes 2.1 to 2.4, 2.6 and		market.3. Shall not be placed on the market if they contain a colouring agent, unless required
bis(2-chloropropyl) ester			for fiscal reasons, or perfume, or both, if they:
	and 2, 2.14 categories 1 and 2, 2.15	types A to	 can be used as fuel in decorative oil lamps for supply to the general public, and,
	F;		- present an aspiration hazard and are labelled with R65 or H304,4. Decorative oil lamps for
			supply to the general public shall not be placed on the market unless they conform to the
	on sexual function and fertility or or		European Standard on Decorative oil lamps (EN 14059) adopted by the European Committee
	development, 3.8 effects other than	n narcotic	for Standardisation (CEN).5. Without prejudice to the implementation of other Community
	effects, 3.9 and 3.10;		provisions relating to the classification, packaging and labelling of dangerous substances and
	(c) hazard class 4.1;		mixtures, suppliers shall ensure, before the placing on the market, that the following
	(d) hazard class 5.1.		requirements are met:
			a) lamp oils, labelled with R65 or H304, intended for supply to the general public are visibly,
			legibly and indelibly marked as follows: "Keep lamps filled with this liquid out of the reach of
			children"; and, by 1 December 2010, "Just a sip of lamp oil — or even sucking the wick of
			lamps — may lead to life- threatening lung damage";
			b) grill lighter fluids, labelled with R65 or H304, intended for supply to the general public are
			legibly and indelibly marked by 1 December 2010 as follows: "Just a sip of grill lighter may
			lead to life threatening lung damage";
			c) lamp oils and grill lighters, labelled with R65 or H304, intended for supply to the general
			public are packaged in black opaque containers not exceeding 1 litre by 1 December 2010.6.
			No later than 1 June 2014, the Commission shall request the European Chemicals Agency to

The information in this safety data sheet is based on data and samples provided to BIG. The sheet was written to the best of our ability and according to the state of knowledge at that time. The safety data sheet only constitutes a guideline for the safe handling, use, consumption, storage, transport and disposal of the substances/preparations/mixtures mentioned under point 1. New safety data sheets are written from time to time. Only the most recent versions may be used. Old versions must be destroyed. Unless indicated otherwise word for word on the safety data sheet, the information does not apply to substances/preparations/mixtures in purer form, mixed with other substances or in processes. The safety data sheet offers no quality specification for the substances/preparations/mixtures in question. Compliance with the instructions in this safety data sheet does not release the user from the obligation to take all measures dictated by common sense, regulations and recommendations or which are necessary and/or useful based on the real applicable circumstances. BIG does not guarantee the accuracy or exhaustiveness of the information provided and cannot be held liable for any changes by third parties. This safety data sheet is only to be used within the European Union, Switzerland, Iceland, Norway and Liechtenstein. Any use outside of this area is at your own risk. Use of this safety data sheet is subject to the licence and liability limiting conditions as stated in your BIG licence agreement or when this is failing the general conditions of BIG. All intellectual property rights to this sheet are the property of BIG and its distribution and reproduction are limited. Consult the mentioned agreement/conditions for details.
