

QUALITY ABRASIVES THAT GIVES YOU CONFIDENCE

VOGEL 4" CUTTING WHEEL - 100 x 2 x 16 mm

4 INCH CUTTING WHEEL WHICH DELIVERS HIGH PERFORMANCE CUTTING POWER

Our 2mm thickness cutting wheel measures 100x2x16 mm, and is engineered for the perfect balance between raw cutting power and high lateral stability. Vogel 100x2 is a perfect cutting product for most cutting operations on most materials due to its ability to achieve short cuts with minimal burr formation. Its high stability also ensures a safety to its users, and has gained prominence as a high-performance universal cutting wheel for almost every cutting application.

Vogel 100x2 cutting wheel is especially suited for use on steel and stainless steel, in almost every metal cutting application.

This product is flat and can be used with most standard handheld angle grinders.

PROPERTIES
