

PROFESSIONAL CONSTRUCTION & INDUSTRIAL PRODUCTS

FIX ALL XTREMEPOWER

EXTREME POWER HYBRID POLYMER ADHESIVE WITH INITIAL TACK UP TO 400 KG / M²

The most extreme of the Fix All Range, you can count on this adhesive to fulfill all your bonding requirements in the most simple ways. Just apply and press, and the extreme initial tack ensures it holds up without sliding.

Soudal's proprietary SMX hybrid polymer technology means that this product can bond and work on virtually all materials, and even underwater.

PROPERTIES

- Extreme tack means it can hold up to 400 kg / sqm in its initial bond!
- No more holding up materials by hand or making support struts
- Extremely durable, high strength bond with superb resistance to movements
- Heavy-duty adhesive with extreme adhesion to most substrates
- Retains limited flexibility and elasticity to ensure long-lasting bond
- Bonds onto humid surfaces, even underwater!
- Excellent resistance to weather and UV
- No smell, solvent-free, isocyanate-free
- Harmless to health and to the environment
- Fast curing without the need of a primer

APPLICATION

- Perfect for almost any bonding applications
- Construction bonding
- Any bonding involving very heavy materials
- Sign-making, automotive, marine, and industrial applications

SUITABLE SUBSTRATES

Stone, Concrete, Marble, Granite, Limestone, Travertine, Cork, Rockwool, Gypsum board, Polystyrene, Glass, Mirror, Porcelain, Tiles, Brickwork, Steel, Stainless steel, Lead, Zinc, Copper, Aluminium, PVC, Polycarbonate, Wood, Timber, Plywood, MDF, Plasterboard, Fibreglass, and many more. Not suitable for PE, PP, and PTFE.

PACKAGING

290 ml cartridges, 12 cartridges / carton

COLOURS

White

SHELF LIFE

12 months in unopened packaging in a cool and dry place between 5°C to 25°C.

EXTREME INITIAL TACK

SUPER STRONG
