METAL FIX

SUPER-STRENGTH SEALANT ADHESIVE WITH METALLIC-SILVER APPEARANCE

Metal Fix is a flexible, super-strength construction adhesive / sealant with very high initial tack, capable of bonding more than 150 kg / m² upon contact. Suitable for bonding heavy materials without mechanical fastening or support. Metal Fix contains aluminium pixels which gives the product a metallic look.

Soudal's proprietary SMX hybrid polymer technology means that this product can bond and work on virtually all materials, and even underwater.

PROPERTIES

- Based on Soudal's proprietary SMX hybrid polymer technology
- Extremely high adhesive strength on most construction materials
- High initial tack reducing the need for initial support
- High shear strength after full cure, even without primer
- Permanent elasticity - can be used as a sealant
- Contains aluminium pixels to achieve metallic-silver finish
- Impervious to mould: contains ZnP, a biocide with fungicidal action
- Superb weather, water, and UV resistance

APPLICATION

- Any construction bonding and sealing, especially on metals where a metallic appearance of the adhesive or sealant is preferred
- Bonding of heavy materials, even without mechanical fastening or support
- Elastic bonding of panels, profiles, and other pieces on common substrates
- Bonding of vibrating constructions, and other flexible bonding applications

SUITABLE SUBSTRATES

Stone, Concrete, Marble, Granite, Limestone, Travertine, Cork, Rockwool, Gypsum board, Polystyrene, Glass, Mirror, Porcelain, Tiles, Brickwork, Steel, Stainless steel, Lead, Zinc, Copper, Aluminium, PVC, Polycarbonate, Wood, Timber, Plywood, MDF, Plasterboard, Fibreglass, and many more. Not suitable for PE, PP, and PTFE.

PACKAGING

290 ml cartridges, 6 cartridges / carton

COLOURS

Metallic silver

SHELF LIFE

12 months in unopened packaging in a cool and dry place between 5°C to 25°C.

VERY STRONG ADHESION

HIGH INITIAL TACK
