FOR IMMEDIATE RELEASE

PFE Technologies Expands Portfolio with Aqara Smart Home Devices

Singapore, 1 May 2021 - PFE Technologies Pte Ltd, a distinguished distribution and manufacturing company based in Singapore, is pleased to announce its latest venture into the world of smart home solutions through a distribution partnership with Aqara, a renowned global brand in the smart home industry. This strategic collaboration not only marks a significant milestone as PFE Technologies broadens its product offerings, but also reinforces its commitment to excellence by integrating Aqara's range of smart home devices into its portfolio.

Through PFE Technologies' extensive distribution network, Singapore's homeowners and businesses can now experience a wide selection of smart home devices that effortlessly blend with daily life. With a shared vision, both companies aim to elevate the quality of life through technologically-advanced smart home solutions.

ABOUT AQARA

Aqara, a leading smart home provider founded in 2009, has quickly gained worldwide recognition for its commitment to delivering smart home products that combine aesthetic elegance, durability, and user-friendliness. Aqara operates under the philosophy that a smart home should not only be technologically advanced but also seamlessly integrated into everyday life. With offices in New York, Shenzhen, and other parts of the world, Aqara's global reach underscores its mission to provide a distinctive smart lifestyle that resonates with users internationally.

Aqara's product lineup ranges from smart sensors to switches, curtain controllers, and digital door locks.

ABOUT PFE TECHNOLOGIES PTE LTD

Established in 1978, PFE Technologies Pte Ltd offers a range of products from abrasives and sealants, and now, smart home solutions, owning the Pereseal brand, and distribution rights to Soudal and Klingspor. Recognized for its commitment to quality and exceptional value, PFE has fostered enduring customer relationships through its dedication to superior products and services.

The addition of Aqara's smart home devices signifies PFE Technologies' move into innovative sectors. With its extensive network of contractors and partners, PFE Technologies is set to bring Aqara's technology to a broader audience, enhancing the smart living experience in Singapore.
